Virginia's Community Development Block Grant program provides funding to eligible units of local government to address blighted structures which are no longer economically viable. Targeted improvements should be part of a broader improvement effort aimed at creating a vibrant community and resulting in revitalization activities which stimulate private investment and create jobs.

Programs

CDBG Competitive Grants

Available to address blighted structures as part of a commitment to create jobs.

CDBG Community Economic Development Fund (CED)

To support industry location or expansion, where significant job creation and private investment will result.

CDBG Innovation Fund

In support of redevelopment or adaptive reuse of key properties in downtown communities as part of a larger revitalization strategy.
